

Dear Wayne,

I am the sole proprietor a local Plumbing and HVAC Company. I have been in business for over 20 years after my father retired. I am not a member with MCAM and am wondering what the benefits would be for my business and me if we were to become a member. I have recently read news on some of the events MCAM hosts throughout the year and I would like to get involved. Can you let me know what the benefits are in becoming a member and how much value it would be for my company and where do I start?

Sincerely,  
Curious and Interested

Dear Curious and Interested,

Thank you for reaching out. I just love talking about all the wonderful things that MCAM has done for Mechanical and Service Contractors, Tradesmen and the industry. For over 30 years has been the unified voice and provides leadership for the mechanical contracting industry in Manitoba. MCAM's Strategic plan is heavily involved in Government Partnership & Advocacy, Enhancing External Relationships and Education, just to name a few. Some of MCAM's objectives are:

- To create a forum for members to proactively engage with the Board of Directors
- To promote Mandatory Membership and professional designation for MCAM members
- To enhance networking opportunities for service contractors, associates and mechanical contractors.

I think it's great that you are interested in learning more about us. Not only are the events fun and awesome, the networking alone is invaluable. So yes, joining MCAM would be of huge value for your company and employees. Education plays a huge part in their strategic plan. MCAM supports and coordinates training for members, through education week and Lunch and Learns held throughout the year. MCAM is partnered with the universities for internship and scholarships. Click here the button below to review the brochure and that is a good place to start.

Thanks for your message and hope to see you at our next event!

Sincerely,  
Wise Wayne
