

MCAM recently participated in workshops concerning Manitoba's Energy Future Strategy. The province is now seeking public input to help Develop its Long-Term Energy Policy Framework. Vertical infrastructure is one the leading contributors to greenhouse gas emissions in Manitoba, with direct links to mechanical systems and technology. MCAM is encouraging its members to participate in the provincial survey as the outcome of Manitoba's Energy Future Strategy may have significant implications for the industry. The link may be found [HERE](#), the survey closes March 14, 2022. The full Manitoba government announcement can be found [HERE](#).

The links are below:
