

# MCAM Holiday Reception *Recap*

MCAM was proud to celebrate 50 years representing the Mechanical Industry in Manitoba at their Annual Holiday Reception, December 8, at James Avenue Pumphouse. The recently opened restaurant in the heart of Winnipeg's Exchange District was a fun and fitting location for their members to network and mingle safely. Built in 1906, the Pumphouse represented ground-breaking technology in the Mechanical Field and drew audiences from around the world to see it in action.

Aaron Shorr was on-site once again to provide musical entertainment as delicious hors d'oeuvres and signature cocktails were served.

The "come-and-go" party hosted approximately 100 MCAM members throughout the event.

Executive Director Ramona Coey said, "MCAM has gained presence and credibility and that is because of the commitment from the board of directors; past and present. I believe you are achieving what your founding members set out to achieve."

**FUN FACT:** MCAM Contractor Member, Southern Comfort Mechanical Inc. was one of the major contractors to work in restoring this historical location.
