

## March Lunch & Learn March 14, 2024

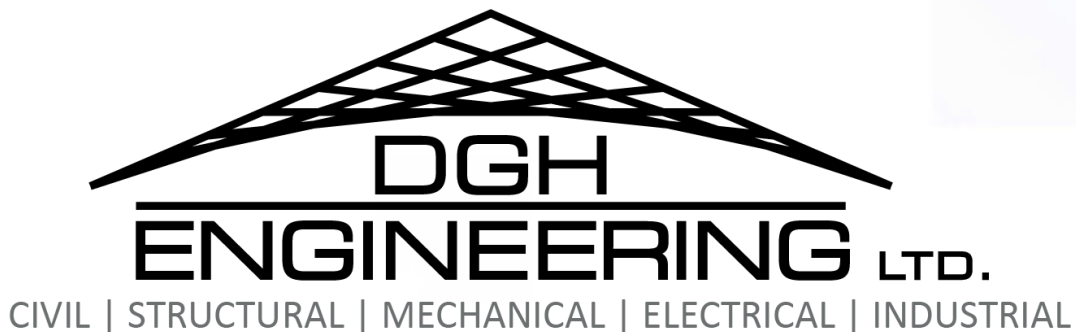

The MCAM Lunch and Learn event hosted at the Canadian Museum for Human Rights on March 14, 2024, showcased informative presentations and networking opportunities. The event began with displays sponsored by DGH Engineering and Sunbelt Rentals, exhibiting their services and offerings.

Rick Mayo, Taco's Western Product & Application Instructor, led a session on Air to Water heat pump features, benefits, function, and their potential to supplement heating and domestic hot water needs for single-family residences. These units also offer cooling capabilities, providing a comprehensive heating, hot water, and cooling solution in one system.

Evan Edwards and Richard Bars from Duboff Edwards Schachter introduced the upcoming "Prompt Payment" laws, currently operational in select Canadian provinces and soon arriving in Manitoba. This legislation focuses on timely invoice payments across all parties involved and offers an expedited adjudication process for payment disputes, avoiding lengthy court proceedings.

Stay tuned for upcoming MCAM events in 2024, providing ongoing education and networking opportunities for members.
