

Group Life & Health

Key Features

- Available to groups with as few as 5 employees
- Customized plans designed with flexibility to meet your unique requirements
- Higher maximums available without providing evidence of insurability
- Unique 6 month lay-off provision
- Pooled rates provide buying power and sustainability
- Most comprehensive travel cancellation and emergency medical on the market
- Tax advantaged Health Spending programs included
- Many more optional benefit options available

Summary of Benefits

1. Comprehensive: Plans allow full coverage at discounted rates for salaried, hourly and contract workers.

2. Customization: Individual firms are able to customize their program with a variety of options.

3. Medical questionnaires & examinations: Providing evidence of good health can be a problem for some employees. This plan offers higher guaranteed levels of life insurance and income replacement coverage without the burden of proof of health.

4. Lay-off: The construction industry can be seasonal and lay-offs are common, so this plan has been designed with a unique provision in which employees can be laid-off for up to six months and still remain on the plan (with the exception of long term disability coverage).

5. Rates: Because the rates are based on the participation of many firms in the construction industry, rates are lower than those available to individual firms. The large participating group stabilizes the annual rates.

Protect. Recruit. Retain.

Tax-advantaged reimbursement tool creating choice and flexibility for employees.

Critical Conditions

Basic or Enhanced coverage for up to 31 covered illnesses.

Plan Member Advocacy™

Ellement Consulting Group is proud to provide MCAM Members and their valued employees with an award-winning service platform (Plan Member Advocacy - PMA™). PMA eliminates administrative minutia from your administrative teams and removes the liability inherent in employer involvement in the claims process by working directly with your employees on claims inquiries.

A Powerful Human Resources Tool

Your employees are your most valuable assets. With a highly competitive labour market, companies are continually looking for a competitive advantage.

As a Construction company you have access to individually designed benefit programs with rates that are lower than those available to individual firms outside of the Association. This unique construction plan has also been designed with a convenient lay-off provision to accommodate the needs of the construction industry.

Access to the Construction Association Benefit Plan can help you recruit new employees and retain experienced members of your team. Offering a comprehensive health and insurance package shows that you care about your employees and their families.

A Flexible, Service Driven Program

Plan Member Advocacy™, proprietary to Ellement Consulting Group, provides claims and health advocacy to every plan member and their families as well as administrative assistance to Plan Sponsors, saving the companies we work with time and money.

Group Retirement Solutions

The Construction Association Group Retirement Program gives members access to high performing proprietary products with low fees, that only large, institutional investors can regularly access.

Our knowledgeable, experienced professionals help employers comply with all regulatory guidelines by employing an education strategy, and ensuring all fiduciary responsibilities are met, monitored, recorded, and reported back to the plan sponsor annually. In addition, our Investment Coach program ensures all plan members have access to individual investment consultation by an experienced advisor, providing your employees a thorough understanding of the program, and fulfilling a need that other service providers frequently overlook.

Specialized Group Retirement Solutions

- Deferred Profit Sharing Plans (DPSP)
- Group RRSP
- Pension Plans
- Individual Pension Plans (IPP)
- Retirement Compensation Arrangements (RCA)
- Employee Profit Sharing Plans (EPSP)
- Tax Free Savings Accounts (TFSA)

Ellement Consulting Group has worked with Canadian Construction companies in designing and servicing Group Life & Health Plans since 1986 and has been providing Group Retirement Solutions since 1972.

Ellement Consulting Group offers objective, professional advice and consultation on a variety of benefit programs including Group Life & Health plans, Executive and Group Retirement Solutions, Investments, Health and Wellness Plans and Advocacy. MCAM Member Testimonials

"My company has a long history with Ellement and the Association benefits plan. We have grown and changed our plan over the years with help from the team at Ellement and appreciate their partnership in managing the program and serving our employees and their families.

We strongly recommend this program to anyone looking for more value for their investment in their benefits plan."

-Tony Mohammed of Air Movement Services

"Ellement worked with us to build a benefits plan suited to our unique requirements and continue to provide value as our company evolves. The plan pricing is competitive and the service to our administrators as well as our employees and their families is exceptional. We highly recommend our industry colleagues consider this program."

-Jennifer Lowe of Lowe Mechanical Services

The Association Difference™

Saving you valuable time and money. The pooled Association plan is the most flexible, comprehensive and competitive benefits plan on the market for construction.

Ellement Consulting Group is proud to be a partner of MCAM's Membership Advantage program.
