

October Lunch & Learn October 25, 2023

The October Lunch & Learn event was held at the Radisson on October 25, 2023. Attendees kicked off the day with coffee and engaging exhibits sponsored by DGH Engineering and WD Industrial Group, offering valuable networking opportunities.

The event featured informative presentations by industry experts. Ryan Orlesky from ITS discussed obtaining CRNs for Pressure Piping Systems, emphasizing the roles of contractors and engineers. Attendees gained insights into streamlining inspections and registrations.

Peter Petik from ITS, covered quality assurance within the Pressure Vessel Industry, explaining the significance of Quality Assurance Programs, contractor and manufacturer responsibilities, and Certificate of Authorization.

Scott Hammond and Brennan Laidlaw explored the role of mechanical contractors in reducing greenhouse gas emissions and turning service contracts into retrofits, providing valuable industry insights.

MCAM will be hosting many more Lunch & Learn events in the coming year, ensuring ongoing education and networking value for our members.
