

September Lunch & Learn September 28, 2023

The MCAM Lunch & Learn event, held at the Wyndham Garden Winnipeg Airport on September 28, offered a dynamic platform for industry members to gather and expand their knowledge. Attendees began their day by sipping on coffee while engaging with an exhibit booth sponsored by DGH Engineering, providing valuable networking opportunities.

The event featured two insightful presentations. The first presentation, led by Joe Kasprick of Inspection and Technical Services, delved into the the 2020 National Construction Codes.

The event continued with the second presentation, led by Steve Bervanakis of Crosier Kilgour. Steve shared vital information about why and where code mandates require the use of Seismic restraints.

Amidst the presentations, guests enjoyed a satisfying lunch that further fostered networking. This Lunch & Learn marks the beginning of a series of seven luncheons set to take place over the next year, promising ongoing educational and networking value for all MCAM members.
