

AI Front Desk

for Field Service Contractors

An emergency after hours?

Never miss another call.

EMERGENCY HANDLING

1 • Detect

AI identifies emergency keywords during the call

2 • Alert

On-call technician alerted via SMS, email, and voice call

3 • Resolve

Customer receives ETA confirmation within seconds

Full incident logged with context for your team

Technician dispatched, emergency resolved

Intelligent response

Instant AI answers to FAQs. Hours, service area, pricing, "are you open right now?". Without bothering your team.

Trained on your trade

Knows your services, pricing, hours, service area and on-call rotation cold.

Books jobs

Confirmed jobs and qualified leads land in your existing dashboard. No new tool. No double entry.

Smart scheduling

Routine calls are booked into open slots or messaged back, so your day fills itself.
