

The Mechanical Contractors Association of Manitoba President's Ball was a roaring success, transporting guests back to the era of speakeasies, flappers, and fedoras. Held at The Metropolitan Entertainment Centre, the event was themed around a Prohibition-era speakeasy, with guests entering through an entrance that looked like a back alley, complete with greeters offering sparkling wine.

The evening featured a sumptuous four-course meal, and a specialty bar served up classic cocktails, including Old Fashioneds and Mary Pickfords. Entertainment was in no short supply, with The Killer Keys providing a unique show, taking requests from the audience and playing classic tunes. Guests could also try their luck at casino tables, virtual reality stations, and a glamorous selfie station.

Attendees earned tickets by participating in the various games throughout the evening, which they could then enter into a raffle for a chance to win exciting prizes. These included Apple Watches, a PlayStation 5, a Ninja Creami, Winnipeg Blue Bomber passes and more. Many guests dressed up in period clothing, with Central Hydronics earning the distinction of best-dressed group, and receiving sashes for their efforts.

Attendees also had the opportunity to purchase tickets to enter a raffle for a job box filled with wine, adding an extra layer of excitement to the evening. All in all, the President's Ball was an unforgettable night of glamour, fun, and celebration that will be remembered for years to come.
