

Thirsty Thursday June 29th, 2023

The Next Gen Thirsty Thursday Event took place on June 29th at Trans Canada Brewing, bringing together the Next Genners to engage in discussions about achieving net zero by 2050 and the crucial involvement of the Mechanical Industry.

The event featured two special guests, Scott Hammond from SMS Engineering and Ed Lohrenz from GEOptimize, who shared their invaluable insights on the subject. Part of the discussion covered geothermal heating and cooling systems.

Attendees had the opportunity to network, enjoy local craft beer and appetizers while exploring the important role of the Mechanical Industry in reaching the goal of net zero emissions.

This event was made possible by the support of Pitblado Law, the Title Sponsor, who was invaluable in creating an atmosphere of collaboration and sharing of knowledge within the Next Gen community.

Thank you to our Title Sponsor
